

Testimonial for Hard Builders

Martyn Hard was employed by us to remodel the property at Huntsland, Ling Lane, Scarcroft, Leeds.

The project commenced on the 15th July 2015 and completed on 23rd December 2016. Throughout this time period Martyn not only supervised the project and got involved with all aspects of making sure each tradesman performed the tasks to the highest of standards, but also actively did many parts of the work in joinery and roofing. As in most building projects the scope of the work and designs changed but Martyn was extremely helpful in adopting our plans and suggesting other ideas to maximise the quality of the final build. Throughout this project Martyn was available for discussions and solving any problems outside of normal working hours. The sourcing of materials to maintain price competitiveness was important for a project of this size and finding the suppliers to get timely delivery, and to this end Anita was very pro-active ensuring efficiency gains in the process.

It is testimony to Martyn that he selected quality tradesmen who were reliable and turned up on time to finish the tasks so that the project flowed smoothly. It was sometimes challenging to get them to work together but this was well managed. It was also useful to have regular meetings on-site and ensure the project stayed on track with architects from A & J to QC all of the work.

We are very happy with the final building and have no hesitation in recommending Hard Builders to anybody wishing to undertake a project of this kind. Many compliments on the external appearance of the building were given by members of public and neighbours.

Regards

Jagat Deo
