We would like to thank Martyn and his team for the excellent extension, and extensive alterations, they have provided for our home. This is an old, stone house. We are delighted with how well the new extension blends in with the existing house.

We have lived on site during the building work, and we are very grateful for the consideration and respect shown to us by every member of the team. The pleasant atmosphere that is always on the site has made the project a genuinely enjoyable experience for us.

Martyn stated that he would complete every aspect of work to the standard he would want for his own house. We are delighted that, down to the smallest detail, the work has been carried out to the highest standard. The project has been completed on time, every day of the project. He has chosen an excellent team who we found to be completely trustworthy.

We have already recommended Hard Builders to a number of our friends, and would have no hesitation in recommending Martyn and his team again in the future. They are the only builders we have ever used who we would recommend without reservation.

With very best wishes

Helen & Andrew Morrell
